

**REMARKS**

The previous amendment was rejected as non-compliant as it showed the amendments as to the previously submitted amendment rather than as to the paragraph as it appeared in the patent. The Examiner has indicated that the above presentation of the amendment meets the requirements. Since this is substantively the same amendment which was submitted on October 13, 2006, with a new declaration, no declaration is needed with this amendment. The application should now be in suitable state for allowance.

Respectfully submitted,

/Susan Moeller Zerull/
